

DOUBLE SEAM EVALUATION CLASS

TWO CLASSES, FOUR TO SIX HOURS

Training is provided at customer's facilities.

ABOUT DOUBLE SEAM EVALUATION CLASS

- 2 to 3 hour class for general knowledge of how a double seam is formed and evaluated for commercial acceptability. (Includes Wrinkle School).
- 4 to 6 hour class will include the above mentioned material and detailed instructions (hands-on) on how to utilize the tools for performing double seam evaluation.

WHO SHOULD ATTEND?

This class is recommended for maintenance, quality control, operations and supervisors. This will include testing and certification for double seam evaluation.

SCHEDULE, REGISTRATION AND FEE

For class details, schedule, and for individual and group registration, please visit: www.SilganU.com.

If the current class schedule doesn't meet your company's needs, we will do our best to accommodate you with additional options when possible. Please contact our Training Coordinator to discuss available dates or email us at SilganU-CES@silgancontainers.com.
